

"A Customer First Company"

June 2015

Welcome to the June 2015 Edition of "On the Move"

K&K Celebrates 10 Year of Excellence in Commuter Transportation!

K&K is celebrating 10 years as a leading vanpool services provider in our region. Keith and Pamela Trent started K&K in June 2005 with one 15 passenger van and now has grown to be one of the largest vanpool companies in our area.

Currently, we operate over 50 passenger and minivans, and serve over 400 commuters each week. Most of our vans originate from the Richmond metropolitan area with destinations in the DC area, however we have vans in the Williamsburg and beyond.

K&K is truly a family company. Pamela Trent, Keith's wife, is the President and Keith's two children, Keith Jr. and Keiona act as support staff. Keith Jr. is the Logistics Assistant Manager, and Keith's mother, who recently passed away in February 2015, was the Customer Service Representative. Along with their immediate family K&K has managed to grow their company with additional local support and staff members including their Office Manager Anita Anderson, Carlton Clarke their Logistics Manager, and other support team members including Courtlin Lewis, Gene & Onika Williams, and their wash crew. In addition to these individuals, there have been several other staff members that have helped support K&K along the way.

Looking forward into the future K&K continues to explore ways to help people locally that travel more than 25 miles one way to work. We are also looking to find partnerships within the local Hispanic community that will help provide cost savings in commuting costs.

Finally, ten years would not have been possible without the loyalty of our riders. We appreciate your support and look forward to 10 more years of providing excellent commuter services.

Greetings from Minivan #31

We absolutely love receiving pictures of our riders and want to share with you photos from Minivan #31. This van travels from Richmond to Washington, DC.

We would like to thank Ronald Mulach, Juanita "Lynn" Johns, and Eileen Kurtz for being in this picture. Also, thanks to Junko Williams for serving as "photographer." Other members of this van not featured in this photo include Barbara Jordan and Wanda Lopez.

Do you have a picture you would like to share with us? Have you and other members of your van participated in outside activities and events? We would love to feature you and your van in an upcoming edition of our newsletter. Please feel free to email pictures and other interesting information about your van to Onika Williams at owilliams@ridek2k.com.

June 2015

Safe Driving Tips for the 4th of July

We know many of you will be heading out for road trips, long weekends, and enjoying time spent with family and friends during our upcoming Fourth of July weekend. Here are a couple of tips to keep you safe as you travel.

- Don't drink and drive. Of the 400+ fatalities over the Fourth of July weekend every year, 40%-60% are due to drunk driving. Make sure you have a designated driver— someone who will not drink a drop of alcohol before driving home from the fireworks and festivities.
- Make sure to get enough sleep. The second cause of driving fatalities is drowsiness. With all the festivities it is easy to party and stay up late. If you are tired pull over and rest.
- Look out for other drivers who may be impaired or distracted. If you spot a vehicle obviously endangering others (swerving, switching lanes erratically, etc.) maintain a safe following distance and don't attempt to pass them. When you feel you are no longer in danger ask another passenger in your vehicle to report the car (via drivers' license number) by calling your local non-emergency police line.

- Always wear your seat belt. You may not be able to avoid a collision. Often despite our best efforts at defensive drive accidents do happen. Making sure your entire car is safely buckled will increase your chances of a safe drive home at the end of the long weekend.
- Keep your travel plans flexible. Give yourself extra time to allow for road conditions, weather, or unexpected emergencies. Make sure you check road conditions before setting out.
