K&K Safety Corner Not "Beat the Clock" but "Arrive Alive"

Back on February 11, 2009 we sent out an email addressing the seriousness of speeding and reckless driving. For this month's safety corner we wanted to post an email response sent by one of our coordinator's Sharon Brinkley. We felt Sharon's comments were right in line with the message we want to get across concerning this subject. Below is Sharon's email response to her van.

"I sincerely hope all of my drivers take heed to this message. This message could not have come at a better time because I was ready to express my opinion about the driving skills on Van 013. Here lately, some drivers have been pressing rather hard on the gas pedal and coming pretty darn close to running into the vehicle in front of you. Then what happens you SLAM on the brakes!! Poor brakes, I really feel sorry for them. If they could only talk. By the way every shut eye is not always sleeping. When we are sleeping the excessive speeding, sharp turns and brake slamming wakes everyone up in a state of shock. I can't stress this enough but "Please, Please, Please" slow down and save some lives not only ours but the others on the road as well. We are not playing "Beat the Clock" but "Arrive Alive" and in one piece. Thanks in advance for your cooperation on this matter."

Thank you to Sharon and all others who sent us back responses concerning your support of the email. If anyone did not receive the safety email sent out on February 11th please contact Onika at

owilliams@ridek2k.com and she will send it out to you.
